To All Seneca Cayuga Tribal Members:

Sgeno, I want to begin by saying thank you to all that attended the 2021 Seneca Cayuga Nation General Council Meeting. It was amazing to see everyone come together with such joy and excitement and with a common cause.

While we, the members of the BC have attended General Council Meetings for many, many years, for the majority of our BC, this was the very first ever GC that we have had to plan and execute. It was definitely a great learning experience for us and we are very appreciative of all the amazing people that came together to make it happen!

The Business Committee is using this time to reflect on all that we accomplished at the meeting, as well as all that we observed and learned during the meeting. We are going to be in discussion of "What can we improve, or do differently, in the future to address some of those observations" (#1 definitely being a better PA system). While also keeping in mind what did work.

At one point, we did lose quorum which was detrimental to General Council completing very important business of the Nation. It felt as though we lost sight of what we were there to do and we lost quorum at that time, by only 15 people. Rather than everyone getting on the phone and trying to get 15 people to come attend, or return, more people just started leaving. If we could have just gotten 15 to return, we could have continued on to address some very important issues that needed General Council's attention and decision, this year. The BC will be brainstorming to come up with a feasible solution to get these issues addressed and brought before the General Council.

Lastly, I know that everyone is anxious to find out what all happened at the GC meeting on Saturday. As I finish drafting my minutes for the meeting, I will post all the business accomplished at the meeting. I want to make sure the information that I put out is complete and accurate for all those that could not make it.

I appreciate all the support and encouragement that we have received from tribal members. It is an honor to be able to serve our tribal family and continue to build a strong Nation for our future generations.

Nyaweh,
