

The business committee is working on two initiatives with regard to the constitution.

The first objective will be 5 immediate changes to the constitution, which will be presented to tribal members to vote on. The BC is in the process of initiating a request to the BIA for a secretarial election on these. Full details and a link to a video presentation will be provided. The changes will be presented in a yes/no format and you should consider each one separately.

The second objective is the creation of a Constitution Committee to work on rewriting the constitution as a whole. These are two separate initiatives and will be presented as such.
